BASE LOG

THE BASE'S STORY

Who did this place belong to before you?

Who else knows it's here?

What does it never have enough of?

Where does everyone end up when there's nothing to do?

What sound means trouble?

NOTES

BASE TURN

When. At the end of each long rest at the base, and once at each extended downtime.

Tasks. Each facility that isn't Idle performs one task; away, the staff repeat their last.

Base roll. Duality Dice, no trait. Hope: a PC here gains a Hope. Fear: the GM gains a Fear and rolls Base Events. Critical: one task pays out twice; clear 1 Exposure.

Watched (3+). Roll Base Events after every base roll.

Found (6). Raid countdown (3), ticks at each long rest anywhere.

EXPOSURE

Gain 1. The crew leads an enemy home; someone who knows the base talks; careless or traced comms; an event says so.

Clear 1. Cover Your Tracks, Good Word, a critical base roll, a Sensor Net's or Planetary Shield's task.

DOWNTIME AT THE BASE

Recruit Staff. Long rest: replace a lost staffer.

Cover Your Tracks. Long rest: clear 1 Exposure (one PC per rest).

Shore Up. Tool Kit: repair a damaged facility.
